186. Investigations by Local Sealers.—The county or local sealer who may have reason to believe that any weight, measure, balance or measuring device used in trade is inaccurate, or not according to the standard, shall have authority to make an immediate examination of the same and require that the same be tried and tested and conform to the standards herein required. (Id. § 83-135.)

187. Co-operation by State Board of Health and Food and Drug Inspectors With State and Local Sealers.—It is hereby made the duty of the State Board of Health and its several food and drug inspectors to co-operate with the State and local sealers in carrying out the provisions of this act and all other acts relating to weights and measures, and the said food and drug inspectors are hereby authorized and empowered to act as inspectors of weights and measures used in trade. The State Board of Health shall procure, at the expense of the State, a full set of standard weights, measures and balances, including sets of standard apothecary's weights and measures, and cause the same to be proved and sealed by the State standards under the direction of the State Sealer, together with the necessary working sets of weights, measures, balances and measuring devices for the use of the said inspectors, which must be officially sealed, and such weights and measures, balances and measuring devices provided for such inspectors shall be competent evidence in all courts in this State in criminal or civil actions. (Id. § 83-136.)

188. The weight per gallon shall be as follows: Naphtha, five and three-fourths pounds; kerosene oil, six and one-half pounds; paraffine oil, seven and one-half pounds; castor oil, eight pounds; olive oil, seven and five-eighths pounds; linseed oil, raw, seven and one-half pounds; linseed oil, boiled, seven and one-half pounds; menhaden oil, seven and one-half pounds; cod liver oil, seven and one-half pounds; whale oil, seven and one-half pounds; lard oil, seven and one-half pounds; neat's foot oil, seven and one-half pounds; sperm oil, seven and one-fourth pounds; turpentine, seven pounds; miners' oil, seven and one-half pounds; gasoline, seven and one-fourth pounds. (Id. § 83-137.)

(Id. § 83-138.)

190. Sale of Grain, Seed, Hay or Coal.—Every sale of grain, seed, hay or coal shall be deemed to be made on the basis of the actual weight thereof, unless a different basis is established by the express agreement of the parties to the transaction. Any purchaser of grain, seed hay or coal who, without express agreement with the seller thereof, shall knowingly deduct any quantity or amount from the actual weight or measure of the article purchased, and withhold payment therefor under claim of right so to do by reason of any custom, rule of a board of trade or any other pretense whatsoever, shall be deemed guilty of a misdemeanor and subject to a fine of not less than twenty-five dollars nor more than one hundred dollars for each and every offense. No agent or broker selling grain, seed, hay or coal for the owner thereof shall be presumed to have authority to sell any grain, seed, hay or coal on a basis other than that of the actual weight or quantity thereof, but express authority to allow any deduction must be proved. (Id. § 83-139.)

191. PART I.

General Food and Drug Law.

1. **Manufacture, Exposure for Sale, Sale, or Possession for Sale of Adulterated or Misbranded Drug; Penalty; Interstate Commerce.**—It shall be unlawful for any person, persons, firm or corporation within this State to manufacture for sale, produce for sale, expose for sale, have in his or their possession for sale, or to sell any article of food or drug which is adulterated or misbranded within the meaning of this act; and any person or persons, firm or corporation, who shall manufacture for sale, expose for sale, have in his or their possession for sale or sell any article of food or drug which is adulterated or misbranded within the meaning of this act shall be fined not less than ten dollars (\$10.00) nor more than one hundred dollars (\$100.00), or be imprisoned not to exceed fifty days, or both such fine and imprisonment: Provided, that no article of food or drug shall be deemed misbranded or adulterated within the provisions of this act when intended for shipment to any other State or country, when such article is not adulterated or misbranded in conflict with the laws of the United States; but if said article shall be in fact sold or offered for sale for domestic use or consumption within this State, then this proviso shall not exempt said article from the operations of any of the other provisions of this act. (Stats. 1922, § 2060.)

2. **"Food" Defined.**—The term food, as used in this act, shall include every article used for or entering into the composition of food or drink for man or domestic animals, including all liquors. (Id. § 2060a-1.)

3. **Food Deemed Misbranded, When.**—For the purpose of this act, an article of food shall be deemed misbranded:

1. If the package or label shall bear any statement purporting to name any ingredient or substance as not being contained in such article, which statement shall not be true in any part; or any statement purporting to name the substances of which such article is made, which statement shall not give fully the name or names of all substances contained in any measurable quantity.

2. If it is labeled or branded in imitation of or sold under the name of another article, or is an imitation either in package or label of another substance of a previously established name; or if it be labeled or branded so as to deceive or mislead the purchaser or consumer with respect to where the article was made or as to its true nature and substance, or as to any identifying term whatsoever whereby the purchaser or consumer might suppose the article to possess any property or degree of purity or quality which the article does not possess.

3. If, in the case of certified milk, it be sold as or labeled "certified milk," and it has been so certified under rules and regulations by any county medical society, or if when so certified it is not up to that degree of purity and quality necessary for infant feeding, as determined by rules and regulations of the State Board of Health.

4. If it be misrepresented as to weight or measure, or if where the length of time the product has been ripened, aged or stored, or if where the length of time it has been kept in tin or other receptacle, tends to render the article unwholesome, the facts of such excessive storage, ripening, ageing or packing are not plainly made known to the purchaser and to the consumer.

5. If the package containing it or its label shall bear any statement, design, or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading in any particular: Provided, that articles of liquor which do not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded within the provisions of this act, in the case of articles labeled, branded or tagged so as to plainly indicate that they are compounds, imitations, or blends, and the word "compound," "imitation," or "blend," as the case may be, is plainly stated on the package in which it is

offered for sale; provided, that the term "blend" as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring and flavoring ingredients used for the purpose of coloring and flavoring only. (Id. § 2060a-2.)

4. Food Deemed Adulterated, When.—For the purpose of this act, an article of food shall be deemed to be adulterated:

1. If any substance or substances be mixed or packed with it so as to reduce, lower or injuriously affect its quality or strength.

2. If any substance be substituted wholly or packed with it so as to reduce, lower or injuriously (affect its quality or strength).

3. If any valuable constituent of the article has been wholly or in part abstracted; or if the product is below that standard of quality represented to the purchaser or consumer.

4. If it is mixed, colored, coated, polished, powdered or stained, whereby damage is concealed, or if it is made to appear better or of greater value than it is, or if it is colored or flavored in imitation of the genuine color or flavor of another substance of a previously established name.

5. If it contains any poisonous ingredient which may render such article injurious to health, or if it contains any antiseptic or preservative which may render such article injurious to health, or any other antiseptic or preservative not evident or not plainly stated on the main label of the package.

6. If it consists of or is manufactured from in whole or in part of a diseased, contaminated, filthy or decomposed substance, either animal or vegetable, unfit for food or an animal or vegetable substance produced, stored, transported or kept in a condition that would render the article diseased, contaminated or unwholesome, or if it is any part the product of a diseased animal, or the product of an animal that has died otherwise than by slaughter, or that has been fed upon the offal from a slaughterhouse, or if it is the milk from an animal fed upon a substance unfit for food for dairy animals, or from an animal kept and milked in a filthy or contaminated stable or in surroundings that would render the milk contaminated: Provided, that any article of food which may be adulterated and not misbranded within the meaning of this act, and which does not contain any added poisonous or deleterious ingredient and which is not otherwise adulterated within the meaning of paragraphs four, five and six of subsection four [2060a-3] of this act, or which does not contain any filler or ingredient which debases without adding food value, can be manufactured or sold, if the same be labeled, branded or tagged so as to show the exact character thereof. And all such labels and all labeling of packages provided for in any provisions of this act shall be on the main label of each package and in such position and character of type and terms as will be plainly seen, read and understood by the purchaser or consumer: Provided, further, that nothing in this act shall be construed as requiring or compelling the proprietors, manufacturers or sellers of proprietary foods which contain no unwholesome substances or ingredients to disclose their trade formulas except in so far as the provisions of this act require to secure freedom from adulteration, imitation or misbranding. But in the case of baking powders, every can or other package shall be labeled so as to show clearly the name of the acid salt, which shall be plainly stated on the face of the label to show whether such salt is cream of tartar, phosphate or alum: Provided, further, that nothing in this act shall be construed to prohibit the manufacture or sale of oleomargarine, butterine or kindred compounds in a separate and distinct form, and in such manner as will advise the consumer of the real character, free from coloration or ingredient that causes it to look like butter. (Id. § 2060a-3.)

5. "Drug" Defined.—The term drug, as used in this act, shall include all medicines and preparations recognized in the latest revisions of the United States Pharmacopœia or National Formulary for internal or external use, and any substance intended to be used for the cure, mitigation or prevention of diseases either of man or other animal, and shall include Paris green and all other insecticides and fungicides. (Id. § 2060a-4.)

6. Drug Deemed Adulterated, When.—For the purpose of this act an article of drug shall be deemed to be adulterated:

1. If, when a drug is sold under or by the name recognized in the United States Pharmacopœia or National Formulary, it differs from the standard of strength, quality or purity as determined by the tests laid down in the United States Pharmacopœia or National Formulary: Provided that no drug defined in the United States Pharmacopœia or National Formulary shall be deemed to be adulterated under this provision if the standard of strength, quality or purity be plainly stated upon the bottle, box or other container thereof, although the standard may differ from that made by the test laid down in the United States Pharmacopœia or National Formulary: Provided, further, that in the case of those drugs recognized in the United

States Pharmacopœia, eighth revision, and National Formulary, third edition, and not adopted as official in the United States Pharmacopœia, ninth revision, and National Formulary, fourth edition, they shall conform to the strength, quality or purity as determined by the tests laid down in the said United States Pharmacopœia, eighth revision, and National Formulary, third edition; and in all cases of those drugs recognized in the United States Pharmacopœia, ninth revision, and National Formulary, fourth edition, they shall conform to the standard of strength, quality or purity as determined by the tests laid down in the said United States Pharmacopœia, ninth revision, and National Formulary, fourth edition; and in any case of conflict or variance in title, strength, quality or purity between the said eighth and ninth revisions of the United States Pharmacopœia, or the third and fourth editions of the National Formulary, the ninth revision of the said United States Pharmacopœia and the fourth edition of the said National Formulary shall in all cases be the controlling standard.

2. If the strength or purity fall below the professed standard or quality under which it is sold.

3. If in putting up any drug, medicine or preparation, proprietary or otherwise, used in medical practice, or if in making up a prescription or filling an order for drugs, medicines or preparations, proprietary or otherwise, one article is substituted or dispensed for a different article for [or] in lieu of the article prescribed, ordered and demanded, or if a greater or less quantity of any ingredient specified in such prescription, order or demand, is used than that prescribed, ordered or demanded, or if it deviates from the terms of the prescription, order or demand by substituting one drug for another: Provided, that except in the case of physicians' prescriptions nothing herein shall be deemed or construed to prevent or impair or in any manner affect the right of the druggist or pharmacist or other person to recommend the purchase of an article other than that ordered, required or demanded, but of a similar nature, or to sell such article in lieu of an article ordered, required or demanded, with the knowledge and consent of the customer. (Id. § 2060a-5.)

7. Drug Deemed Misbranded, When.—For the purpose of this act an article of drug shall be deemed to be misbranded:

1. If the package or label bears any statement, design or device regarding such article or drug or regarding any ingredient or substance contained therein which shall be false or misleading in any particular, or if it is falsely branded as to State, territory or country in which it is manufactured or produced.

2. If it be an imitation of or offered for sale under the name of another article, or if it be labeled, branded, or in any way represented or sold so as to deceive or mislead the purchaser or consumer as to the quality, purity or medicinal value.

3. If the contents of the package as originally put up, or the contents of the package, box, bottle, phial, can or other container, sold or exposed for sale, delivered, given away, shipped or offered for shipment, shall have been removed in whole or in part, and other contents shall have been placed in such package or box, phial, can or other container, or if when a package or container has been once emptied and new contents placed therein, all original labels, marks, brands and identifying marks are not entirely removed or effaced, and new labels, marks and brands truthfully describing the new product or products affixed; provided, that such new contents shall not be like or similar to said original contents.

4. If the package, box, bottle, phial, can or other container shall fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilide, or any derivative, or any preparation of any such substances contained therein: Provided, that nothing in this paragraph shall be construed to apply to the dispensing of prescriptions written by a regularly licensed practicing physician, veterinary surgeon or dentist and kept on file by the dispensing pharmacist, or to such drugs as are recognized in the United States Pharmacopœia and the National Formulary, and which are sold under the name by which they are recognized; and provided, further, that this provision shall not be construed as repealing or in conflict with any statute which prohibits the sale of certain drugs except upon a prescription of a physician; and provided, further, that nothing in this act shall be construed as repealing any acts regulating the practices of medicine or pharmacy not in conflict herewith; provided, further, that no prescription shall be knowingly refilled except for the person for whom it was written. (Id. § 2060a-6.)

8. State Board of Health to Examine Specimens of Food and Drugs; Appointment of Food and Drug Inspectors; Taking Samples for Examination.—It shall be the duty of the State Board of Health to make, or cause to be made, examinations of samples of food and drugs manufactured or on sale or dispensed

in Kentucky at such time and place and to such extent as it may determine. It shall also make, or cause to be made, analysis of any sample of food or drug which it or any health official or the State Board of Pharmacy may suspect of being adulterated or misbranded, and of any sample of food or drug furnished by any commonwealth's county or city attorney of this State. And the said board may appoint such agent or agents or inspectors as it may deem necessary, who shall have free access at all reasonable hours for the purpose of examining into places wherein any food or drug product is being produced, manufactured, prepared, kept or offered for sale or dispensed, for the purpose of determining as to whether or not any of the provisions of this act are being violated, and such agent or agents, upon tendering the market price of any article, may take from any person, firm or other corporation, a sample of any article desired for examination. (Id. § 2060a-7.)

9. State Board to Fix Methods for Taking and Analyzing Samples; to Fix Standards of Purity, Quality and Strength; Uniformity of Standards; Standard of Nomenclature of Food or Drug; Committee to Adopt Rules Relating to Drugs.—The State Board of Health is hereby empowered to adopt and fix the methods by which samples taken under the provisions of this act shall be analyzed or examined, and to adopt and fix standards of purity, quality or strength when such standards are necessary or are not specified or fixed herein or by statute; provided, that such standards shall be published for the information and guidance of the trade; Provided, further, that for the purpose of uniformity, when such standards so fixed differ from the legally adopted standards of the United States Department of Agriculture, the State Board of Health shall arrange for a conference between the proper food control representatives of the United States Department of Agriculture and the board and representatives of the trade to be affected, for the purpose of arriving, if possible, at a uniform State and national standard. And provided, further, that when the standard or nomenclature for any food or food product has been determined by the Supreme Court of the United States such standard or nomenclature shall govern in the enforcement of the provisions of this act. And provided, that all rules and regulations for the governing and carrying out of the provisions of this act relating to drugs shall be made and established by a committee of three persons composed of the director of the experiment station, the president of the State Board of Health and the pharmacist member of said board. (Id. § 2060a-8.)

And it shall be the duty of every commonwealth attorney, county attorney and city attorney to whom the State Board of Health, or the State Board of Pharmacy, or to whom the chief health officer of any county, town or city shall report any violation, to cause proceedings to be commenced against the party so violating this act, and the same prosecuted in the manner as required by law; Provided, however, that in the case of the first charge or finding, the manufacturer or dealer shall be notified of the finding and be given a hearing within fifteen days before a report is made to the commonwealth's, county or city attorney as herein provided; Provided, further, that where more than one sample of the same brand of product has been taken and examined, the first finding or charge shall be construed to apply to all samples so taken, and notice and hearing shall apply to all such samples. (Id. § 3524.)

262. Inspectors a Board.—It shall be their duty to organize themselves as a board, appointing one of their own number as president of the board and another secretary. Seven members shall constitute a quorum.

The board of inspectors shall have a common seal. In the absence of the president or secretary, the board shall name a president or secretary pro tempore. The president and secretary shall be chosen yearly, be allowed each two hundred dollars per annum for their services. (Id. § 3525.)

265. Rules and By-laws.—They shall have authority to make rules and by-laws for the regulation of the members in the discharge of their duties, which by-laws shall not be inconsistent with the laws and Constitution of this State and of the United States. (Id. § 3528.)

266. Warehouses.—It shall be the duty of the board to provide suitable warehouses in the city for storage of tobacco at the lowest rates at which they can be obtained, two of which shall be located in the fourth district, which warehouses shall be fire-proof, and floored with plank two inches thick, and provided with a sufficient number of presses, and shall be located at such points as will be most convenient for the reception of tobacco, and for the convenience and interest of those engaged in the tobacco trade. (Id. § 3529.)

267. Inspection.—When the tobacco is brought to the warehouse, it shall be received by the inspector or inspectors allotted to said warehouse or their clerk, who shall immediately mark with ink the warehouse numbers, commencing with one and running to the end of the year, on each end of the cask; when called on by the owner or agent to inspect a lot of tobacco, they shall cause the hogshhead or cask to be placed at a convenient distance from the press and under the eye of the inspector or their clerk to cause one head of the cask to be taken out; the cask must then be headed upon the open end, and the whole cask be taken from the tobacco and weighed. The weight of the cask being the tare, shall be marked on it with a marking iron. The inspector shall then have the tobacco broken in four

different places, from each of which he shall draw four hands or bundles of tobacco, which shall be tied up neatly and compactly, the bundle from the top breaks forming the first layer of the sample. The inspector shall be careful that the sample shall be a fair representation of the quality of the whole hogshead of tobacco, as near as he can make it. The tape or twine used in tying up the sample shall pass through the hands of tobacco, and a seal of wax shall be put on each sample. One end of the sample card which expresses the quality of the tobacco, the warehouse number, inspection number, and initial of the inspectors' names who have inspected it shall be put under the seal of wax. When a hogshead or cask of tobacco is damaged, if practicable, the damaged portion shall be cut off and held at the disposal of the owner or agent. The quantity so trimmed shall also be expressed on the sample card with ink. If the damage be to such an extent that it cannot be trimmed off, the inspectors shall refuse to classify the hogshead. They shall give a sample of it, expressing the probable extent of the damage, but without inspection seal. If upon the inspection of a hogshead of tobacco it be apparent that it is falsely or fraudulently packed, said hogshead shall be marked "condemned," and the inspectors shall refuse to give a sample of it. It shall then be at the disposal of the owner or agents subject to the same charges as if it had been inspected. If the cask or hogshead shall prove to be of green or unsound timber, the inspectors shall provide a suitable cask at the expense of the owner or agent. (Id. § 3530.)

268. Classification.—There shall be two classes of tobacco, to-wit: Admitted and Refused. The inspectors shall class as Admitted all tobacco they may find to be sound, well cured and in good keeping condition; and they shall class as Refused all such tobacco as they may find to be soft, high in case, or otherwise unsound. (Id. § 3531.)

269. Reinspection.—When the inspectors are called upon to reinspect a lot of tobacco, they shall make a copy of the original sample card, and shall write on it with ink in plain letters "reinspected," and shall give the date of the same. (Id. § 3532.)

270. Repacking and Marking.—When the inspection of one or more hogsheads of tobacco is finished, the laborers of the warehouse, under the eye of an inspector or his clerk, shall have the cask returned to the tobacco, and the loose tobacco shall also be returned, and should it be impossible to put it all in, it shall be held subject to the order of the owner; after it is placed under the press, it shall be coopered up, in good condition for shipping, each cask having six hoops.

The cask shall then be weighed by an inspector or his clerk, and the gross weight marked in ink over the tare weight. The gross weight, the tare, and the warehouse number, shall also be marked with marking irons, by cutting with the same on the bilge of the hogshead or cask, and the cask then stored away. (Id. § 3533.)

271. Inspection Book.—The particulars of each day's inspection shall be recorded in a book to be kept in each warehouse for that purpose, in which shall be noted all the marks and numbers on the cask, when received, the gross weight, tare, warehouse number, inspection number, by whom inspected, and for whose account. (Id. § 3534.)

272. Certificate of Inspection.—The samples and a certificate, corresponding with the record of inspection, shall then be issued to the owner or agent, and shall be a receipt for the tobacco. This certificate shall be transferable by indorsement or otherwise, which shall be evidence of its delivery.

When the legal holder of the certificate shall call for the delivery of the tobacco, it shall be the duty of the inspectors to have the hogsheads promptly delivered at some opening of the warehouse which is accessible by a paved street. (Id. § 3535.)

273. Temporary Receipt.—On receiving tobacco in the warehouse, the clerk of the inspectors shall give temporary receipts to the owner or agents, acknowledging the receipts thereof, which they may require to be surrendered upon the issuance of their certificate of inspection.

The inspectors shall be liable for all tobacco stored with them, and shall be responsible to all persons interested in the same, for the correctness of the sample and weights. The inspectors shall have recourse upon the particular inspector or inspectors whose neglect or wrongful act has caused the damage. (Id. § 3536.)

274. Inspectors Cannot Deal in Tobacco.—The inspectors themselves and the persons employed by them, are prohibited from dealing or trading in tobacco, either in their own names or in the names of others, in any manner whatever, or from being connected with or having any interest in the business of other persons dealing in tobacco, or putting up loose tobacco in bales or hogsheads, or from being interested in any manner in the warehouse rented by them for the storage of tobacco.

co, or from having any interest in the drayage of tobacco to and from the warehouses.

Upon conviction of the violation of any of the above prohibitions, the inspector, or other person so offending, shall be deprived of his office, and shall be subjected to a fine of not less than five hundred nor more than two thousand dollars; and any inspector, upon conviction of making willfully a false or fraudulent inspection, or accepting a bribe in relation to the discharge of the duties of his office, shall be deprived of his office and shall suffer imprisonment in the penitentiary not less than three months nor more than two years. (Id. § 3537.)

275. Inspection.—All tobacco shall be inspected by two inspectors in the presence of each other; and in case of disagreement between them a third inspector shall be called in, who shall decide upon its quality. (Id. § 3538.)

276. Same.—The inspectors shall not inspect tobacco at any other warehouses than those provided as contemplated by the preceding section. (Id. § 3539.)

277. Fees.—The fees for receiving, weighing, inspecting, storing for two months, coopering, and all other duties imposed by law upon the inspectors, shall not exceed two dollars and fifty cents per hogshead, one-half of which shall be paid by the purchaser to the seller. For reinspecting, reweighing and coopering, the charge shall be seventy-five cents for each hogshead.

On tobacco remaining in store more than two months from date of receipt, they shall charge extra storage at the rate of twenty-five cents per month. On tobacco stored on which there is no inspection, fifty cents per month. The owner or agent storing the tobacco shall be bound for the fees, and there shall be a privilege upon the tobacco for them. (Id. § 3540.)

Tax on Tobacco and Tobacco Products for Benefit of Public Schools.—There is hereby levied a tax in the sum as hereinafter set forth upon tobacco and tobacco products as defined in section 2 of this act for the benefit of the public schools of the State of Louisiana, which tax shall be paid and collected as set forth herein, from every person, firm, corporation, association of persons engaged in selling any or all such forms and kinds of tobacco, tobacco products and tobacco substitutes at retail. The stamps affixed to boxes containing cigars or chewing tobacco shall be canceled by placing thereon the date of such affixing. (Id. § 3.)

281. Retail Sales.—Where the retail or selling price is referred to in this act as the basis for computing the amount of stamps required on any article, it is intended to mean the retail selling price of the article before adding the amount of the tax. (Id. § 4.)

It shall be his duty to purchase at the lowest price possible, quality and convenience of delivery being considered, and keep on hand in his office or some other safe depository at all times a sufficient and adequate supply of stamps in requisite denominations, to be by him determined and to supply all persons, firms, corporations or associations of persons who are retail dealers in tobacco and tobacco products. He shall have authority to establish agencies throughout the State for the convenient distribution of stamps. (Id. § 6.)

When any case is compromised the Supervisor of Public Accounts shall keep on file in his office reasons for settlement of any case by compromise, together with a statement of the amount of tax assessed, the amount of penalty imposed and the amount actually paid in accordance with the terms of the compromise. (Id. § 9.)

287. Powers and Duties of Supervisor of Public Accounts.—The Supervisor of Public Accounts shall have the power and it shall be his duty to require any person, firm, corporation or association of persons engaged in the retail sale of tobacco and tobacco products as described herein, to furnish any information by him deemed necessary for the purpose of enforcing the payment of said tax. SIZE REQUIREMENTS.

"Minimum size" as used in this chapter means the transverse diameter of the smallest apples permitted in the container taken at right angles to a line running from the stem to the blossom end. Minimum sizes shall be stated in terms of whole and quarter inches, as two and one-quarter inches minimum, two and one-half inches minimum, in accordance with the facts.

In order to allow for variations incident to proper sizing not more than five per centum, by weight, of the apples in any container may be below the specified minimum size.

DEFINITION OF TERMS.

The following terms as used in this section mean:

"Well formed" means having the shape characteristic of the variety.

"Free from damage" means that the apples shall not be injured by any defect to any extent either apparent in the process of proper grading or which would cause a loss in the ordinary preparation for use. The following blemishes shall not be considered as damage: (1) Two small healed insect punctures not larger than one-eighth inch in diameter in which the injured tissue is dry and corky; (2) russetting and limb rubs which do not materially disfigure the fruit; (3) scab spots affecting an aggregate area of not more than one-fourth inch in diameter; (4) hail marks where the injury is superficial and the skin has not been broken or discolored; (5) spray burn or sunscald where the injury is superficial and the normal color of the fruit is not materially changed and where there is no blistering or cracking of the skin.

"Free from serious damage" means that no defect shall be permitted which taken singly or collectively, materially deform or disfigure the fruit. The following defects shall not be considered as serious damages: (1) Healed insect punctures which do not materially deform the fruit; (2) small scab and blotch infections not exceeding an aggregate area of one-half inch in diameter, or cedar rust infection not exceeding an aggregate area of three-quarters inch in diameter provided the skin is not cracked; (3) superficial blemishes such as fly speck and sooty blotch

affecting not to exceed one-third of the surface; (4) or fruit spots such as Bitter Pit (Stippen) and Jonathan Spot affecting not to exceed ten per centum of the surface.

Decay, scald, or other deterioration developing in storage or in transit on apples otherwise up to grade shall be considered as affecting the condition and not the grade.

No shipment, consignment or lot of apples in closed packages shall be condemned without examination of at least one-fifth of the contents of five per centum of the packages in such shipment, consignment or lot. Any shipment, consignment or lot in which five per centum of the packages are found to contain fruit below the grade marked on the container may be condemned by the commissioner of agriculture or his authorized deputies. (Id. § 27, as amended P. L. 1927, c. 193.)

29. Minimum Size to be Stated; Word "Apples" to Appear.—Every closed package of apples, which is packed, sold, distributed, transported, offered or exposed for sale, distribution or transportation in the State by any person shall have affixed in a conspicuous place on the outside thereof a plainly printed statement clearly and truly stating the size of the package in terms of standard bushel box or standard barrel, the name and address of the owner or shipper of the apples at the time of packing, the name of the variety, the class or grade of the apples contained therein, and the minimum size of the fruit in the packages, and if the apples were grown in Maine, that fact shall be plainly designated and the word apples must appear in all instances. (R. S. 1916, c. 36, § 28, as amended P. L. 1923, c. 94, § 2.)

31. Term Adulterated Defined.—For the purpose of sections twenty-five to thirty-four, both inclusive, of this chapter, apples packed in a closed package shall be deemed to be adulterated if their measure, quality, grade or purity do not conform in each particular to the claims made upon the affixed guaranty. (Id. § 30.)

32. Misbranded, Defined.—For the purpose of sections twenty-five to thirty-four, both inclusive, of this chapter, apples packed in a closed package shall be deemed to be misbranded:

Second. If the package bears any statement, design or device regarding such article or its contents which shall be false or misleading in any particular, or is falsely branded in any particular. (Id. § 31.)

33. Commissioner of Agriculture Shall Have Access to Places Where Apples Are Packed.—The Commissioner of Agriculture, in person or by deputy, shall have free access, ingress and egress, at all reasonable hours to any place or any building wherein apples are packed, stored, transported, sold, offered or exposed for sale, or for transportation. All licenses now outstanding shall become void on the passage of this act and new licenses must be obtained under the conditions herein set forth. Applications for licenses shall be made upon special forms provided by the Director of Sea and Shore Fisheries. Violations of the agreements of the application shall render the license thereon void. Dumping, destroying or removing any bag, box or other receptacle after command of the Director of Sea and Shore Fisheries or his wardens when pursued by the Director of Sea and Shore Fisheries or his wardens shall be evidence of violation of the agreement of his application and the license of such person shall be revoked. The said director shall keep the clerks of various cities, towns and plantations bordering on the sea shore and other clerks who request them, supplied with blank applications; said clerk shall keep a supply of them on hand and furnish them to applicants. All applications when filled out shall be forwarded to the office of said director together with fees for same. No person whose license has been revoked or suspended shall assist in the catching of lobsters in any way. Every person who shall violate the provisions of this section shall upon conviction be subject to the fines and penalties provided in section seventeen. (R. S. 1916, c. 45, § 19, as amended P. The Director of Sea and Shore Fisheries in his discretion may, before conviction, suspend the license of any person, firm or corporation whenever he has evidence that such person has violated any of the laws relating to lobsters. Upon the suspension of license all traps, cars, gear, and all devices used in connection with catching lobsters shall be taken from the water within five days after suspension. Any person with traps, cars or any other device remaining in the water, after the expiration of the five days, shall be fined five dollars per day for each trap, car or other device remaining in the water, and any car, smack, vehicle or other device used in the holding, carrying or transporting lobsters by any person whose license has been revoked or suspended shall be forfeited and become the property of the State. (R. S. 1916, c. 45, § 20, as amended P. L. 1921, c. 98.)

118. Commissioner May Restore Licenses; on Refusal, Application to Court.—The commissioner may, in his discretion, on sufficient evidence, restore a license revoked by him, and, if he refuses so to do, the license may be restored by any justice of the supreme judicial or superior courts; provided the said justice finds that said commissioner erred in his conclusion of facts, and application is made to the said justice within ten days after the refusal of the said commissioner to restore said license. Any license issued to any party through error or fraud, shall be void, and shall be surrendered on demand of any officer authorized to enforce any law governing the lobster industry in this State, and any party who fraudulently obtains a license under sections seventeen to thirty-four, both inclusive, shall be fined one hundred dollars and imprisonment sixty days in addition, for each offense. (Id. § 22, as amended P. L. 1919, c. 184.)

121. Certificate of Commissioner May be Offered in Evidence.—Any certificate of the Commissioner of Sea and Shore Fisheries in regard to the records of his office, shall be admissible in evidence in all prosecutions under this chapter. (Id. § 24, as amended P. L. 1917, c. 99.)

122. Permission to Set Traps on Trawls Must be Obtained.—When pots or traps are set on trawls, when conditions make it impossible to set otherwise, buoys plainly marked, as provided in the laws of this State, governing the lobster industry, shall be set at both ends of the trawls; but permission for setting such trawls must be obtained from the Commissioner of Sea and Shore Fisheries, and so stated on the licenses issued under section eighteen. (R. S. 1916, c. 45, § 25.)

123. Method of Marking Pots, Traps, Boats and Other Contrivances Used by Lobster Fishermen; Penalty.—No person, firm or corporation licensed under section eighteen or section thirty shall use any pots, traps, boats, trawls or other contrivance used for the catching or taking of lobsters, or cars or other contrivance used for holding or keeping lobsters before transporting or selling, unless the same and the buoys attached thereto are plainly marked, as provided by the laws of the State governing the lobster industry, with the name or names of the owners thereof, or the person or persons using the same. In each instance the surname with initials shall be marked together with the license number or numbers of such party or parties. Every person, firm or corporation violating the provisions of this section shall be fined, upon conviction, twenty dollars, or imprisoned not more than thirty days; the license shall be suspended pending the decision of the court, and, on conviction, the license shall be forfeited, and the respondent shall not be entitled to receive a new one for the period of one year from date of conviction; all pots, traps, cars, buoys, trawls and other contrivance, together with the contents thereof, used contrary to the provisions of the laws of this State governing the lobster industry, shall be seized by any officer engaged in the enforcement of said laws and disposed of as provided by law. Only Owner or Authorized Person Shall Interfere With Contrivances Used in Lobster Industry.—No person, except the Commissioner of Sea and Shore Fisheries, his wardens and deputy wardens, or other officers qualified to enforce the laws of the State governing the lobster industry, shall lift or raise any pot or trap, car, trawl or other contrivance used in the lobster industry belonging to any person, firm or corporation licensed under section eighteen, and set for catching or taking and holding lobsters, except with the permission of the owners thereof. (Id. § 27.)

125. Right of Search and Seizure Given to Officers Enforcing Lobster Law.—For the purpose of enforcing the provisions relating to the protection of lobsters, as provided by the laws of the State, relating to the lobster industry, the Director of Sea and Shore Fisheries and his wardens may search, at any time in suspicious places, including buildings of every description, or any pot, trap, trawl, car, boat, smack, vessel or other vehicle that they may believe is used in the catching, taking, holding or transporting of lobsters, and may seize and remove lobsters taken, held or offered for sale in violation of the provisions of any law of the State relating to the lobster industry. But nothing herein shall be held to confer the right to search a dwelling house without a warrant. The director may appoint as many persons as he wishes, who hold licenses under section eighteen as wardens but so long as they hold licenses they shall serve without pay. (Id. § 28 as amended, P. L. 1917, c. 293.)

126. Lobsters Bought for Shipment Out of State Must Conform to the Law.—No person shall acquire any property in lobsters caught in the waters under the jurisdiction of this State, for the purpose of shipping the same beyond the limits of this State, unless such lobsters conform to the law, and are shipped in accordance with the provisions of sections seventeen to thirty-four, both inclusive. (R. S. 1916, c. 45, § 29.)

127. Owners of Vessels to Give Bond in Sum of \$5,000; Vessels to be Loaded in Day Time; Masters or Captains to be Licensed and to Give Bond in Sum of \$500.—No person, firm or corporation by itself, its servants or agents, save common carriers as provided in section seventeen of this chapter, shall transport or cause to be transported lobsters beyond the limits of this State, unless licensed and having given bond as herein provided. The owner or owners of any smack, vessel or other means of transportation shall make written application for license to the Director of Sea and Shore Fisheries who is hereby

authorized to grant licenses to purchase and transport lobsters within and beyond the limits of this State. The application shall state the name of the smack, vessel or other means of transportation together with a description sufficient to identify it, the name and address of the owner or owners, the name and address of the master, the port of enrollment and registry. The application shall further contain agreements by the applicant therein: to load the smack, vessel, or other means of transportation in the waters over which this State has jurisdiction, and there only between sunrise and sunset, to allow without let or hindrance, inspection and search of such smack, vessel or other means of transportation by the Director of Sea and Shore Fisheries or his wardens, to stop when underway and return to harbor on command of the Director of Sea and Shore Fisheries or his wardens, to return to the waters of the State when so ordered by the Director of Sea and Shore Fisheries or his wardens, to abide by all the laws of this State relating to lobsters. The application shall further contain an agreement that the full penal sum of the bond herein provided for shall be forfeited to the State on breach of any term in said application. The license issued on said application shall state the terms on which the license is issued and that it is issued in consideration of the agreements of the application. Before said license is issued, the applicant shall file with the director of sea and shore fisheries a bond with surety approved by the Director of Sea and Shore Fisheries in the penal sum of five thousand dollars conditioned that said sum shall be forfeited to the State upon breach of any agreement in the application and license. The fee for issuing said license shall be five dollars and a record shall be kept of the same, similar to that provided for other licenses in section eighteen. In addition to the statement of the terms on which the license is issued, the license shall bear the date of the taking effect and the termination thereof, which last named date shall be the last day of November next after it becomes effective. The license shall give no authority to purchase or transport in any smack, vessel or other means of transportation except that named in the license but the name of the smack, vessel or other means of transportation may be changed by the licensee upon application to said director within the license period without further charge. Conviction of the licensee of violation of any statute of Maine relating to lobsters or breach of any agreement of application and license shall render the license void and make the full penal sum of the bond due to the State of Maine, and no licensee so convicted shall be entitled of right to license during the remainder of license year. The Director of Sea and Shore Fisheries may revoke said license when he has evidence that such owner or owners have violated any of the provisions of the law relating to lobsters.

No person shall act as master or captain of any smack, vessel or other means of transportation engaged in transporting lobsters without the State unless licensed and having given bond as herein provided. The master or captain of any smack, vessel or other means of transportation shall make written application for license to the Director of Sea and Shore Fisheries, who is hereby authorized to grant licenses to such captain or master to purchase and transport lobsters within and beyond the limits of this State. The application shall state the name of the smack, vessel or other means of transportation together with a description sufficient to identify it, the name and address of the owner or owners, the name and the address of the master or captain, the port of enrollment or registry. The application shall further contain an agreement that the full penal sum of the bond herein provided for shall be forfeited to the State on breach of any term in said application. The license issued on said application shall state the terms on which the license is issued and that it is issued on consideration of the agreements of the application. Before said license is issued, the applicant shall file with the Director of Sea and Shore Fisheries a bond with surety approved by the Director of Sea and Shore Fisheries in the penal sum of five hundred dollars conditioned that said sum shall be forfeited to the State upon breach of any agreement in the application and

license. The fee for issuing said license shall be five dollars and a record shall be kept of the same, similar to that provided for other licenses in section eighteen. In addition to the statement of the terms on which the license is issued, the license shall bear the date of taking effect and the termination thereof, which last named date shall be the last day of November next after it becomes effective. The license shall give no authority to purchase or transport in any smack, vessel or other means of transportation except that named in the license but the name of the smack, vessel or other means of transportation may be changed by the licensee upon application to said director within the license period without further charge. Conviction of the licensee of violation of any statute of Maine relating to lobsters or breach of any agreement of application and license shall render the license void and make the full penal sum of the bond due to the State of Maine. And no licensee so convicted shall be entitled of right to license during the remainder of license year. The Director of Sea and Shore Fisheries may revoke said license when he has evidence that such master or captain has violated any of the provisions of the law relating to lobsters and no new license shall be issued for a period of one year to any party whose license has become void because of conviction or has been revoked by the Director of Sea and Shore Fisheries. (Id. § 30, as amended P. L. 1919, c. 184.)

Punishment of Persons Not Licensed for Violation of Section 30.—Whoever, as master or owner, transports lobsters without the State, not having obtained the license provided in the preceding section shall be punished by a fine of not less than fifty nor more than five hundred dollars, and both the owner and the master shall become indebted to and pay to the State the sum of five thousand dollars, which sum shall be a lien upon said smack, vessel or other contrivance, the lien to be enforced in the name of the State by appropriate process. (Id. § 31.)

129. Punishment of Licensee for Violation of Provisions of Section 30.—Any owner or master, licensed to transport lobsters without the State as provided in section thirty of this act, who shall either load said smack, vessel or other contrivance between sunset and sunrise or hinder or obstruct the Director of Sea and Shore Fisheries or his wardens either directly or by refusal to stop and commit search, or violate any of the State laws relating to lobsters, shall be punished by a fine of not less than fifty nor more than five hundred dollars. And loading said smack, vessel or other contrivance outside the waters over which the State has jurisdiction or refusal to return to the jurisdictional waters of the State on the order of the Director of Sea and Shore Fisheries or his warden shall be deemed a violation of the terms of the bond provided in section thirty and evidence of violation of the laws of the State relating to lobsters. (Id. § 32.)

130. Money Received From Fines and Forfeited Bonds, How Expended.—All fines collected and money received from bonds forfeited shall be turned over to the Commissioner of Sea and Shore Fisheries, who shall forward the same to the Treasurer of State; which amounts shall be credited to and be a part of the funds used for operating expenses in the Department of Sea and Shore Fisheries. (R. S. 1916, c. 45, § 33.)

131. Municipal and Police Courts to Have Jurisdiction in All Lobster Law Cases; Trial to be in Nearest Court.—The several municipal and police courts shall have concurrent jurisdiction with the supreme judicial court and superior courts over all offenses against the laws of the State relating to lobsters and to the full extent of the penalties therein specified. In case any warrant is issued or indictment found against any licensee under section thirty, and any officer qualified to serve said warrant or indictment shall certify to the court from which it is issued that he has made diligent search and has been unable to locate the respondent, the court shall cause a written notice to be sent to the respondent at the address given in the application for license setting forth the fact that said warrant or indictment has been issued against him and naming a time and place for hearing on the same, which shall not be less than fourteen nor more than thirty days from the date of mailing said notice; and the notice shall state that, in the event of his failure to appear, his bond given to the State shall be forfeited. If he appears, the court will proceed under the warrant or indictment as though he had been apprehended. In the event that he does not appear, the court shall order his bond forfeited; but the order of the court forfeiting said bond shall not otherwise affect the warrant or indictment. Any warrant issued by any such court shall cover offenses occurring in the county where said court is established or in any adjoining

county, but no party shall be tried in an adjoining county, unless the court in such adjoining county is nearer the place where the crime was committed than the court of the county where the offense is alleged to have been committed. Parties defendant, however, have the same right of appeal from the sentences of said inferior courts as is now provided by law in other criminal cases. (Id. § 34, as amended P. L. 1919, c. 184.)

The possession of mutilated lobsters, cooked or uncooked, shall be prima facie evidence that they are not of the required length. Measures for determining the legal length of lobsters shall be provided by the State and may be obtained from the Director of Sea and Shore Fisheries at cost. No evidence shall be received in any of the courts of the State in any matter in which the length of a lobster is in question unless such length has been determined by such a measure. All lobsters or parts of lobsters sold for use in this State or for export therefrom must be sold or delivered in the shell under a penalty of twenty dollars for each offense; and whoever ships, transports, carries, buys, gives away, sells or exposes for sale lobster meat after the same shall have been taken from the shell, shall be liable to a penalty of ten dollars for each pound of meat so shipped, transported, carried, bought, given away, sold or exposed for sale. Any person or corporation in the business of common carrier of merchandise who shall knowingly carry or transport from place to place lobster meat after the same shall have been taken from the shell, shall be liable to a penalty of fifty dollars upon each conviction thereof. All lobster meat so illegally shipped, carried, bought, given away, sold or exposed for sale shall be liable to seizure and may be confiscated. Nothing herein contained shall be held to prohibit the sale of lobsters that have been legally canned. (R. S. 1916, c. 45, § 35, as amended P. L. 1921, c. 98.)

(Id. § 39.)

135. Discretionary With Commissioner as to Making Arrangement for Inspection Before Shipment; Subject to Inspection in Transit.—Whenever the commissioner shall receive from any person, firm, association or corporation that now has or hereafter may open such place of business, or may change said place of business after once it is established, the notice referred to in the preceding section, he shall, if in his judgment it is practicable to do so, arrange with said person, firm, association or corporation for the suitable inspection of lobsters before shipment from said place of business, and cause such lobsters to be inspected; but unless such arrangements are made all lobsters shall be subject to examination in transit. (Id. § 40, as amended P. L. 1917, c. 281.)

Labeling Samples, Etc.—It shall be the duty of the inspector to confine the samples of each hogshead of tobacco inspected, by tying them together with a strong tape run through the head of said sample in such manner as shall be most likely to prevent the bundles from separating or being pulled out, and shall fasten on said sample a pasteboard label on which shall be written the marks and number of the hogshead, the date of inspection, and the name or number of the warehouse, and shall seal said tape and label with sealing wax, and shall stamp it with the seal of the warehouse. Whenever a hogshead of tobacco is redrawn or reviewed, the sample and label thereon of the original inspection shall be returned to the inspector to be by him destroyed; and the label on the sample given at the redrawing or reopening of the tobacco shall show that the hogshead has been re-inspected or reviewed. PART I.

General Food and Drug Law.

1. Definitions.—The following words as used in this chapter, unless the context otherwise requires, shall have the following meanings: . . .

“Drug,” in sections 186 to 196, inclusive, includes all medicines and preparations recognized in the United States Pharmacopœia or National Formulary for internal or external use, and any substance or mixture of substances intended to be used for the cure, mitigation or prevention of disease of man or animal. . . .

“Food,” in sections . . . 181, and 186 to 196, inclusive, includes all articles, whether simple, mixed or compound, used for food or drink, confectionery or condiment, by man or animal. . . . (G. L. 1921, c. 94, § 1.)

2. Adulteration of Drugs and Food Defined.—For the purposes of sections 186 to 195, inclusive, an article shall be deemed to be adulterated:

In the case of a drug: First, if a drug sold under or by a name recognized in the United States Pharmacopœia or National Formulary differs from the standards of strength, quality or purity, as determined by the test, if any, laid down in the United States Pharmacopœia or National Formulary official at the time of investigation; provided, that no drug defined in the United States Pharmacopœia or National Formulary shall be deemed to be adulterated hereunder if the standard of strength, quality or purity thereof is plainly stated upon the bottle, box or other container thereof delivered to the customer, although such standard may differ from that determined by the test, if any, laid down in the United States Pharmacopœia or National Formulary. Second, if its strength or purity falls below the professed standard or quality under which it is sold.

In the case of confectionery: If it contains terra alba, barytes, paraffine, talc, chrome yellow or other mineral substance or poisonous color or flavor, or other ingredient deleterious or detrimental to health, or any vinous, malt or spirituous liquor or compound or narcotic drug.

In the case of food: First, if any substance has been mixed and packed with it so as to reduce or lower or injuriously affect its quality or strength. Second, if any substance has been substituted wholly or in part for the article. Third, if any valuable constituent of the article has been wholly or in part abstracted. Fourth, if it is mixed, colored, powdered, coated or stained in a manner whereby damage or inferiority is concealed. Fifth, if it contains any added poisonous or other deleterious ingredient which may render such article injurious to health; provided, that when in the preparation of food products for shipment they are preserved by any external application applied in such manner that the preservative is necessarily removed mechanically, or by maceration in water, or otherwise, and directions for the removal of said preservative are printed on the covering of the package, sections one hundred and eighty-six to one hundred and ninety-five, inclusive, shall be construed as applying only when said products are ready for consumption. Sixth, if it consists in whole or in part of a filthy, decomposed, or putrid animal or vegetable substance, or any portion of an animal which is unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter. Seventh, if the carcass or parts of the carcass of any animal shall be inflated with gas or air. (Id. § 186, as amended L. 1923, c. 166.)

3. “Misbranded”—Term Defined When Applied to Drugs and Food—When Not to be Deemed Adulterated, Etc.—The term “misbranded” as used in sections one hundred and eighty-six to one hundred and ninety-five, inclusive, shall apply to each drug, or article of food, or article which enters into the composition of food, the package or label of which bears any statement, design or device

*CITATIONS: “G. L. 1921” refers to the General Laws of the Commonwealth of Massachusetts enacted December 22, 1920. “L.” refers to the general acts of the year cited.

regarding such article or the ingredients or substance contained therein, which is false or misleading in any particular, and also to any food or drug product which is falsely branded as to the State or country where it was manufactured or produced.

For the purposes of said sections an article shall also be deemed to be misbranded:

In the case of a drug: First, if it is an imitation of or offered for sale under the name of another article. Second, if the contents of the package as originally put up have been removed, in whole or in part, and other contents placed therein, or if the package fails to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, codeine, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilide, or any derivative or preparation of any such substances contained therein. Third, if its package or label bears or contains any false and fraudulent statement, design or device regarding the curative or therapeutic effect of such article, or of any of the ingredients or substances contained therein.

In the case of food: First, if it is an imitation of or offered for sale under the distinctive name of another article. Second, if it is labeled or branded so as to deceive or mislead the purchaser, or purports to be a foreign product when not so, or if the contents of the package as originally put up have been removed in whole or in part, and other contents placed therein, or if it fails to bear a statement on the label of the quantity or proportion of any morphine, opium, codeine, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilide, or any derivative or preparation of any such substance, contained therein; provided, that nothing in this paragraph shall apply to the repackaging of highly perishable foodstuffs, such as fresh fruit, fresh vegetables or eggs. Third, if the package containing it or its label bears any statement, design or device regarding the ingredients or the substances contained therein which is false or misleading in any particular; provided, that an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases: (1) In the case of articles which are mixtures or compounds which are now or hereafter may be known as articles of food under their own distinctive names and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where said article was manufactured or produced. (2) In the case of articles labeled, branded or tagged so as to indicate plainly that they are compounds, imitations, or blends, if the word "compound," "imitation," or "blend," as the case may be, is plainly stated on the package in which it is offered for sale; provided, that the term "blend" as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purposes of coloring and flavoring only; and provided, that nothing in sections one hundred and eighty-six to one hundred and ninety-five, inclusive, shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain no unwholesome added ingredient to disclose their trade formulas, except in so far as any provision of said sections may require in order to secure freedom from adulteration or misbranding. (G. L. 1921, c. 94, § 187.)

4. Collection of Samples of Foods, Etc.—The collection of samples under sections one hundred and eighty-six to one hundred and ninety-five, inclusive, and three hundred and four* may be made by authorized agents of the Department of Public Health or of boards of health of towns. Samples may be purchased in the open market, and if in bulk and the sample is taken from the original package, carton, wrapper or other container in the presence of such authorized agent, the marks, brands or tags upon such container, and the accompanying printed or written matter shall be noted by such agent, who shall also note the name of the vendor by whom the sale was made, together with the date of the purchase. If practicable, samples shall be collected in duplicate, or divided into two substantially equal parts, and each part shall be labeled with identifying marks. One of such parts or samples shall be delivered to the person from whom they were taken, or, if a guaranty has been given, such part or sample shall be sent to the guarantor. The other part or sample shall be sent to the laboratory of the department or board taking the sample, if said board maintains a laboratory. Parts of samples divided as hereinbefore provided shall be sealed by said agent, at the time of the taking thereof, as provided by the regulations of the Department of Public Health, with a seal provided for that purpose. Whenever it is impracticable either to collect more than one sample or to divide the same, such sample shall be sent to the laboratory

*See No. 18.

of the department or board taking the sample, if said board maintains a laboratory. (Id. § 188.)

5. Examination of Samples, by Whom Made, Etc.—Complaints.—Examination of samples of food and drugs in order to determine by analysis or test whether such articles are adulterated or misbranded within the meaning of sections one hundred and eighty-six to one hundred and ninety-five, inclusive, shall be made under the direction and supervision of the department or board taking such samples as provided in the preceding section; and if it shall appear from such examination that any of the samples are so adulterated or misbranded, the Commissioner of Public Health or the local board of health need not cause formal complaint to be entered at once, but shall in the case of misbranding, and may in the case of adulteration, cause reasonable notice thereof, together with a copy of the results of such analysis or test, to be given to the party from whom the sample was obtained, to the guarantor, if any, and to the party, if any, whose name appears upon the label as manufacturer, packer, producer, wholesaler, retailer or other dealer. Before any formal complaint is entered, any person so notified shall be given an opportunity to be heard before any person designated by the Commissioner of Public Health or local board of health taking the sample, under such rules and regulations as the Department of Public Health prescribes. Such notice shall specify the date, hour and place of hearing, and the parties interested therein may appear in person or by attorney. If it is decided that the party whose name appears upon the label, or the guarantor, shall be notified, and such party or guarantor resides without the Commonwealth, the notice shall be sent by mail to such address as, with due diligence, may be obtained. If after such opportunity to be heard it appears that any provision of sections one hundred and eighty-six to one hundred and ninety-five, inclusive, has been violated, the Department of Public Health or local board of health may make or authorize to be made a formal complaint to a court or justice having jurisdiction in such cases, but no evidence of the result of such analysis or test shall be received if the agent described in the preceding section has refused or neglected to seal and deliver the sample, or part thereof, if and as required in the preceding section. (Id. § 189, as amended L. 1925, c. 42.)

6. Penalty on Manufacturer, Etc.—Whoever manufactures any article of food or any drug which is adulterated or misbranded within the meaning of sections one hundred and eighty-six and one hundred and eighty-seven, or which does not comply with the rules, regulations and standards provided in sections one hundred and eighty-six to one hundred and ninety-five, inclusive, shall be punished by a fine of not less than fifteen nor more than five hundred dollars or by imprisonment for not more than six months. (G. L. 1921, c. 94, § 190.)

7. Penalty for Delivery, Etc., of Food or Drugs Adulterated, Misbranded or Not Complying With Rules, Regulations and Standards, Etc.—Except as otherwise provided in sections one hundred and eighty-six to one hundred and ninety-six, inclusive, whoever for pay or otherwise delivers or offers to deliver to any person any article of food or drug adulterated or misbranded, or which does not comply with the rules, regulations and standards provided for in sections one hundred and eighty-six to one hundred and ninety-five, inclusive, shall in the case of misbranding or non-compliance with said rules, regulations and standards be punished by a fine of not more than two hundred dollars, and shall in the case of adulteration be punished by a fine of not less than twenty-five nor more than two hundred dollars; but no article shall be deemed misbranded or adulterated under sections one hundred and eighty-six to one hundred and ninety-five, inclusive, or not to comply with the rules, regulations and standards provided for in said sections, if it is intended for export to any foreign country and is prepared or packed according to the specifications or directions of the foreign purchaser; provided, that no substance is used in the preparation or packing thereof in violation of the laws of the foreign country to which the article is intended to be shipped; but if the article is sold or offered for sale for domestic use or consumption then it shall not be exempt from said sections. (Id. § 191, as amended L. 1924, c. 228.)

8. Rules and Regulations to be Adopted, Etc.—The Department of Public Health and local boards of health shall enforce sections one hundred and eighty-six to one hundred and ninety-five, inclusive, and, except as to standards fixed by law, the said department shall adopt rules and regulations, consistent with said sections, standards, tolerances and definitions of purity or quality, conforming to the rules and regulations, standards, tolerances and definitions of purity or quality adopted or that may hereafter be adopted for the enforcement of the act of Congress approved June thirtieth, nineteen hundred and six, and the amendments thereof, the said act being entitled "An act for preventing the manufacture, sale or transportation of adulterated or misbranded or poisonous or deleterious foods, drugs,

medicines, and liquors, and for regulating traffic therein and for other purposes," or now or hereafter adopted by the United States Department of Agriculture under any other Federal law. (G. L. 1921, c. 94, § 192.)

9. Prosecutions in Certain Cases Forbidden—Guaranty for Protection—Rules and Regulations.—Except as provided in the following section, no dealer shall be prosecuted under sections one hundred and eighty-six to one hundred and ninety-five, inclusive, for selling or offering for sale any article of food or drug in the original unbroken package in which it was received by him, if he can establish a guaranty by the wholesaler, jobber, manufacturer or other person residing in the United States, from whom he purchased the article, to the effect that the same is not adulterated or misbranded within the meaning of the laws of this Commonwealth. Such guaranty, to afford protection, shall contain the name and address of the person making the sale of this article to the dealer, and in that case such person shall be amenable to the prosecutions, fines, and other penalties which would attach in due course to the dealer under sections one hundred and eighty-six to one hundred and ninety-five, inclusive. If it shall appear that any provision of said sections has been violated, and the party giving said guaranty is without the Commonwealth, no action shall be brought except as is provided therein, but the Department of Public Health or the local board taking the sample shall present the facts to the proper national authorities for their action.

Under the authority given by section one hundred and ninety-two the Department of Public Health shall adopt rules and regulations which shall be observed by the said department and by local boards of health in ascertaining whether there is such a guaranty which may be relied upon by the dealer. (Id. § 193.)

10. Dealer Establishing Guaranty May be Prosecuted, When.—After a sample of an article of food or drug which is adulterated or misbranded has been taken from a person who establishes a guaranty, as provided in the preceding section, and the guarantor resides without the Commonwealth, the dealer may nevertheless be prosecuted for a subsequent sale of such adulterated or misbranded article; provided, that the Department of Public Health or local board which took the sample has presented the facts to the proper national authorities for their action, that the person from whom the sample was taken has been notified by said department or board, that the facts have so been presented, and that such person continues to sell such articles after he has been notified by said department or board as to the particulars of the adulteration or misbranding and warned to desist from further sales or distribution of the article. Upon conviction in any such case the penalties provided in section one hundred and ninety-one may be imposed.

In case of adulteration, if the Department of Public Health or a board of health in a city having a population exceeding one hundred thousand, finds that the same when analyzed is plainly a gross violation of any of sections one hundred and eighty-six to one hundred and ninety-five, inclusive, or that the article is distinctly injurious to the health of the community, even though the case has not as yet been adjudicated, said department may cause notice of these facts to be published in its monthly bulletin and in such other ways as it establishes by rules and regulations; provided, that the guarantor has been notified and has been afforded an opportunity to be heard as provided in section one hundred and eighty-nine. Said notice shall contain a warning to all dealers to desist from further sale or distribution of such article. Whoever sells such article after said notice and warning shall be amenable, for each subsequent sale, to the penalties provided in section one hundred and ninety-one. (Id. § 194.)

11. Construction of Certain Sections.—When construing and enforcing sections one hundred and eighty-six to one hundred and ninety-five, inclusive, the act, omission or failure of any officer, agent or other individual acting for or employed by any individual, corporation, company, society or association within the scope of his employment or office, shall in each case be also deemed to be the act, omission or failure of such corporation, company, society or association as well as that of the individual. (Id. § 195.)

12. Prosecutions as to Drugs Limited.—If the standard of strength or purity of any drug has been raised since the issue of the last edition of the United States Pharmacopœia or National Formulary, no prosecution relative to it shall be maintained until after such change of standard has been published throughout the Commonwealth. (Id. § 196.)

13. Net Quantity Contained in Food Packages to be Marked Thereon.—Subject to the variations, tolerances and exemptions provided for by the following section, no person shall himself or by his agent or servant sell or offer for sale food in package form unless the net quantity of the contents is plainly and conspicuously marked on the outside of the package in terms of weight, measure or

numerical count. This section shall not apply to retail sales of food made from bulk if the quantity is weighed, measured or counted at the time of such sale by the retailer, nor to the sale of milk, cream or buttermilk in glass jars, as provided by section fifteen of chapter ninety-eight.* The Director of Standards shall enforce this and the three following sections. (Id. § 181.)

14. Tolerances and Exemptions.—The Director of Standards shall adopt the variations, tolerances and exemptions established or hereafter established, by rules and regulations provided for by section three of the act of Congress mentioned in section one hundred and ninety-two,† with such further reasonable variations, tolerances and exemptions not covered by the rules and regulations of said section as he deems expedient. (Id. § 182.)

15. Penalty.—Whoever violates any provision of section one hundred and eighty-one shall for the first offense be punished by a fine of not less than ten nor more than fifty dollars, and for a subsequent offense by a fine of not less than twenty-five nor more than one hundred dollars. (Id. § 183.)

16. Hearing Before Prosecution—Prosecution of Guarantor.—Prosecutions under the preceding section shall not be commenced until the party concerned is notified and given an opportunity to be heard before the Director of Standards. No dealer shall be prosecuted thereunder if he establishes a guaranty, signed by the wholesaler, jobber, manufacturer, dealer or other person residing in the United States, from whom he purchased such articles, that they are correctly marked or labeled under section one hundred and eighty-one, designating it, and containing the name and address of such vendor, but in that case such guarantor shall be liable to prosecution and to the penalties provided by section one hundred and eighty-three. If section one hundred and eighty-one has been violated and the guarantor is without the Commonwealth, no action shall be brought but the director of standards shall report the facts to the proper national authorities. (Id. § 184.)

17. Quantity of Certain Substances to be Marked on Packages Containing Certain Patent Medicines, Drugs, Etc.—Proviso—Penalty—When Dealer is Not Liable to Penalty.—Upon each package, bottle or other receptacle holding any proprietary or patent medicine, or proprietary or patent food preparation, containing alcohol, morphine, codeine, opium, heroin, chloroform, cannabis indica, chloral hydrate or acetanilide, or any derivative or preparation of any such substance, there shall be a label upon which shall be printed, in type not smaller than eight point (brevier) capitals, a correct statement of the quantity or proportion of each of said substances therein contained; provided, that if the size of the package, bottle or other receptacle will not permit the use of such type, the size thereof may be reduced proportionately. Whoever manufactures, sells, or offers for sale any medicine or food preparation in violation of this section shall be punished by a fine of not less than five nor more than one hundred dollars; but no dealer shall be prosecuted hereunder if the article is marked as it was when purchased by him and he can establish a guaranty signed by the wholesaler, jobber or manufacturer, residing in this Commonwealth, from whom he purchases such article, to the effect that the same is correctly marked as required by this section, designating it. Such guaranty, to afford protection, shall contain the names and addresses of the parties making the sale of such articles to such dealer. (Id. § 184A, as added L. 1921, c. 486, § 25.)

18. Vendor to Furnish Samples for Analysis, When—Penalty.—Whoever offers or exposes for sale or delivers to a purchaser any drug or article of food, shall, upon application of an inspector, analyst or other officer or agent of the Department of Public Health and upon tender of the value thereof furnish a sample sufficient for the analysis of any such drug or article of food which is in his possession.

Violation of this section shall be punished by a fine of not less than twenty-five nor more than five hundred dollars. (G. L. 1921, c. 94, § 304, as amended L. 1921, c. 486, § 27.)

19. General Penalty.—Unless another penalty is provided in this chapter, whoever counterfeits any brand required by this chapter or whoever without authority marks or brands any article required to be inspected, or marks or brands such article with a counterfeited brand, shall be punished by a fine of not more than two hundred dollars; and whoever alters or defaces any marks or brands made by an inspector of milk or collector of samples of milk under this chapter, unless another penalty is provided, shall be punished by a fine of not more than twenty-five dollars. (G. L. 1921, c. 94, § 306.)

*See No. 422.

†See No. 8.

20. May Appoint Analysts, Inspectors, Etc., to Make Investigations.—In the performance of the duties relative to the sale of drugs and food the commissioner may appoint and remove inspectors, analysts and chemists. Such inspectors shall, in addition to the powers given by sections one hundred and twenty-one to one hundred and twenty-three, inclusive, of chapter ninety-four,* have the same power and authority relative to drugs, food and milk as is given inspectors of milk by sections thirty-five and sixty of said chapter.† Whoever hinders, obstructs or in any way interferes with any such inspector, analyst or chemist in the performance of his official duty shall for the first offense be punished by a fine of not more than fifty dollars, and for a subsequent offense by a fine of not more than one hundred dollars. (G. L. 1921, c. 111, § 9.)

Miscellaneous General Provisions.

21. Sale, Etc., of Unwholesome Food Prohibited—Penalty.—Whoever, himself or by his agent, sells or offers for sale for food or drink any diseased animal or product thereof or any tainted, diseased, corrupt, decayed or unwholesome carcass, meat, fish, vegetable, produce, fruit or provisions of any kind, except when packed in such a container that upon reasonable inspection the condition of the contents thereof cannot be ascertained, without making the condition of the thing sold or offered for sale fully known to the buyer, shall be punished by a fine of not more than two hundred dollars or by imprisonment for not more than six months or both. (G. L. 1921, c. 94, § 150, as amended L. 1927, c. 46.)‡

This section shall not apply to a wholesale dealer who has in his possession fruit or vegetables in the original package with intent to disclose fully to the purchaser the partly decayed condition thereof. (G. L. 1921, c. 94, § 150A, as added L. 1921, c. 486, § 24.)

23. Sixth, diseased animals or carcasses thereof, or any tainted, diseased, corrupted, decayed or unwholesome meat, fish, vegetables, produce, fruit or provisions of any kind, or the meat of any calf killed when less than four weeks old or any product thereof, if kept or concealed with intent to kill, sell or offer the same for sale for food. . . . (G. L. 1921, c. 276, § 1.)

24. Powers and Duties of Department of Public Health.—The department shall take cognizance of the interests of health and life among the citizens of the Commonwealth, make sanitary investigations and inquiries relative to the causes of disease, and especially of epidemics, the sources of mortality and the effects of localities, employments, conditions and circumstances on the public health, and relative to the sale of drugs and food and adulterations thereof; and shall gather such information relating thereto as it considers proper for diffusion among the people. It shall advise the government concerning the location and other sanitary condition of any public institution; and shall have oversight of inland waters, sources of water supply and vaccine institutions; and may, for the use of the people of the Commonwealth, produce and distribute anti-toxin and vaccine lymph and such specific material for protective inoculation, diagnosis or treatment against typhoid fever and other diseases as said department may from time to time deem it advisable to produce and distribute; and may sell, under such rules, regulations or restrictions as the council may establish, such amounts of the various biologic products prepared or manufactured in the laboratories of the department, as constitute an excess over the amounts required for the diagnosis, prevention and treatment of infectious diseases within the Commonwealth. It shall annually examine all main outlets of sewers and drainage of towns of the Commonwealth, and the effect of sewage disposal. (G. L. 1921, c. 111, § 5, as amended L. 1921, c. 322.)

No person, except an authorized inspector of the State Department of Agriculture, shall alter, efface, or remove, or cause to be altered, effaced or removed, wholly or in part, any brands or marks required to be put upon packages under the provisions of this act, except in re-packing, or to make the brands or marks correspond to the contents of the package. Fourth—Commercial grade.—Shall consist of one variety of marketable fruit which does or does not conform to the foregoing grade requirements, except that apples must be not less than two inches in diameter; apparently free from decay and must not have skins broken; ten per cent tolerance on undersize.

It shall be deemed a violation of this act when more than twenty-five per cent of the apples in any one package are inferior in color, size or quality than the faced or shown surface. (P. A. 1925, No. 82, § 1.)

229. Color Requirements.—Color means that portion of the surface of an apple which shows a good shade of red characteristic of the variety. "Fine color" refers to the amount specified in Michigan Fancy and "good color" refers to the amount specified in Michigan "A" as follows:

9. Offices and Reports.—Rooms shall be provided in the Capitol for the office and laboratory of the commissioner. He may require reports from persons engaged in the purchase, manufacture or sale of dairy products and all owners or operators of skimming stations or other places engaged in the business of purchasing milk or cream, and operators of condensaries, dry milk factories, creameries and cheese factories shall on March first in each year, and at such other times as the commissioner may fix, send to him a full and accurate report of the amount of business done during the year preceding, together with such other statistical information as the commissioner may require. (Id. § 3797.)

10. Right of Inspection.—For obtaining information regarding suspected violations of law, the commissioner, his assistants, inspectors, appointees, agents and employees shall have access to all places where any article of food, or other article, the manufacture, sale, use or transportation of which is restricted, regulated or prohibited by this act, or by any law of this State, is or may be manufactured, prepared, stored, sold, used, transported, offered for sale or transportation, or had in possession with intent to use, sell or transport, or where cows or other animals are pastured or stabled, to cars or other carriages used for transportation of such articles or animals, and to places where food is or may be cooked, prepared, sold or kept for sale to or for the public or distributed as a part of the compensation of servants or agents, including public and private hospitals, lumber and railroad camps, inns, boarding and eating houses, drinking places, dining cars, boats and other places where any of said articles may be manufactured, sold, used, offered for sale or transportation, or had in possession with intent to use, sell, or transport, and they may inspect any package, receptacle or container found therein apparently containing any article of food or ingredient thereof, or any other article the manufacture, use, sale or transportation of which is restricted, regulated or forbidden by this act or by any law of this State, and may take samples therefrom for analysis. Any person obstructing such entry or inspection, or failing upon request to assist therein shall be guilty of a misdemeanor. (Id. § 3798.)

11. Seizure, Search, Warrants.—The commissioner may seize all food, the manufacture, transportation, sale or use of which is prohibited by this act, or which is manufactured, sold, used, transported, kept or offered for sale, use or transportation, or had in possession with intent to sell, use or transport in violation of any provision of this act, or in violation of any rule, regulation, definition, standard or ruling made, adopted and published hereunder, and for this purpose he and his several assistants, inspectors, agents and employees shall have the powers of a constable. Such seizure may be made without a warrant, but in such case, as soon as practicable, he shall cause the person suspected of such violation of law to be arrested and prosecuted therefor. When necessary, a search warrant may be issued, as in the case of stolen property, the form of the complaint and of the warrant being adapted to the purpose of this act. (Id. § 3799.)

12. No security for costs shall be required thereon nor upon any prosecution under this act. All food seized, whether with or without warrant, shall be safely kept by the officer or person seizing the same, so long as it may be needed for evidence; and if found upon trial to have been manufactured, sold, used, transported, kept or offered for sale, use or transportation or had in possession with intent to use, sell or transport in violation of law, it shall be forfeited to the State, and shall be disposed of as directed by the court. (Id. § 3800.)

13. Price Not Collectible.—No action shall be maintained for the purchase price or value of any food, the sale of which is prohibited by this act, or which is manufactured, used, sold, transported, kept or offered for sale, use or transportation, or had in possession with intent to sell, use or transport in violation of law; nor shall any person be liable for the price or value of food or board furnished in violation of this act. (Id. § 3801.)

14. Additional Powers and Authority.—The Dairy and Food Commissioner, by himself or any of his assistants, inspectors, agents or employees, in addition to the authority and powers otherwise conferred by law, is authorized and empowered to have and to take access to any and all trucks, aeroplanes, airships, vehicles and railroad cars of every sort and nature transported or being within this State, all railroad stations, storage houses, warehouses, express offices or other places wherein at any time there may be food transported or shipped into from without this State, whether or not such food has been manufactured,

sold or given away without the State, provided, that such food was manufactured, sold or given away with the intent that it be delivered, had or used within this State; and the Dairy and Food Commissioner shall have the same power and authority to open any package, car or vessel containing food so transported or shipped into from without the State, which contains or which he has reason to believe contains any such food; to inspect the contents thereof and to take samples for analysis and examination, all after the same manner and with the same procedure as obtains by law in reference to similar goods manufactured, sold, transported, offered for sale, use or transportation, or had in possession with intent to sell, use or transport within this State. If it shall appear that any such food is adulterated, misbranded, insufficiently labeled, unwholesome, poisonous or deleterious, the Dairy and Food Commissioner shall have the same rights and remedies and shall enforce the same in the same manner as in the case of food manufactured, sold, transported, offered for sale, use or transportation, or had in possession with intent to sell, use or transport within this State. On receiving notice from the commissioner or any authorized agent or employee that he desires to inspect the contents of any such package, can or vessel, it shall be the duty of any common carrier, storage man, warehouseman or their employees, or other person having the same in his possession or under his control, to withhold the same from delivery within this State for such period of time as may be reasonably necessary for the inspection, examination and analysis thereof. It is further made the duty of all such persons to render to the commissioner and his agents and employees all the assistance in their power when so required to effectuate the purposes of this act. In case such inspection, examination or analysis of any such food shall disclose it to be adulterated, misbranded, insufficiently labeled, unwholesome, poisonous or deleterious within the meaning of this act, such persons shall on demand disclose to the commissioner the names and addresses of the consignor and consignee of the package, can or vessel containing the same, and the commissioner, before proceeding further, shall notify such consignor and consignee in writing at their respective addresses of the result of such inspection, examination or analysis as so disclosed. Any common carrier, warehouseman, storageman, employee or other person having such food in his possession or under his control, failing or refusing to comply with any of the provisions of this act shall be deemed guilty of a misdemeanor. (Id. § 3802.)

15. Authority of the Commissioner to Render Certain Food Unsalable.—The Dairy and Food Commissioner, his assistants, inspectors, agents and employees, shall also have power and authority in their discretion to render unsalable for use as food, any food, the sale or use of which is prohibited by this act, or which is manufactured, sold, used, transported, offered for sale or transportation, or had in possession with intent to use, sell or transport in violation of any provision of which [this] act, or in violation of any provision of any rule, regulation, definition, standard or ruling made, adopted and published hereunder, and the said commissioner and his several assistants, inspectors, agents and employees shall be exempt from liability for any such action. The test of the condition of any such food shall be its condition at the time of discovery. Any reasonable and necessary means may be adopted for rendering such food unsalable for use as food. (Id. § 3803.)

16. Definitions and Standards.—For the purpose of securing uniformity, so far as practicable, between the laws of this State and those of the Federal government enacted to prevent fraud and deception in the manufacture, use, sale and transportation of food, and to protect and preserve the public health, it shall be the duty of the Dairy and Food Commissioner to fix, adopt and publish, from time to time, by ruling or rulings, in writing, definitions and standards of quality, purity and strength of articles of food for which no definitions and standards are prescribed by law, and such definitions and standards so fixed, adopted and published shall be the lawful definitions and standards thereof before all courts; provided, that when definitions and standards have been or may be fixed by the Secretary of the Department of Agriculture of the United States, except in cases where definitions or standards otherwise are prescribed by law, they shall be accepted by the Dairy and Food Commissioner and published as definitions or standards for Minnesota. Before any such definitions or standards shall be deemed to be fixed and adopted the ruling or rulings fixing and adopting the same shall be published twice in a legal newspaper of general circulation published at the capital of this State and from and after the tenth day succeeding the date of the last such publication, such ruling or rulings shall have the force and effect of law. An affidavit of such publication, setting forth the said ruling or rulings in full and the dates of such publication thereof, shall be made by

the publisher of such newspaper or by the manager or agent of such publisher, and shall be kept on file by the commissioner in his office with the original of such ruling or rulings. Such affidavit of publication, or a duly certified copy thereof, shall be prima facie evidence of the facts therein contained and of the due fixing, adopting and publishing of the said ruling or rulings, therein set forth. Until such definitions and standards are fixed, adopted and published, the definitions and standards heretofore fixed and adopted by the commissioner shall remain in full force and effect, except as otherwise prescribed by law. Any person who shall manufacture, use, sell, transport, offer for sale or transportation or have in possession with intent to sell, use or transport any article of food which does not conform to such definition and standard so fixed, adopted and published, shall be deemed guilty of a violation of this act. (Id. § 3804.)

17. Rules and Regulations.—For the purposes aforesaid it shall also be the duty of the Dairy and Food Commissioner to make and publish uniform rules and regulations, not inconsistent with law, for carrying out and enforcing the provisions of this act, which rules and regulations shall be approved by the Attorney-General as to form and legality and shall be made and published and affidavits of publication made and filed in the manner specified in section 15 of this act [3804]. From and after the tenth day succeeding the date of the last such publication, such rules and regulations shall have the force and effect of law. The affidavit of publication, or a duly certified copy thereof, shall be prima facie evidence of the facts therein contained, and of the due making and publishing of the rules and regulations therein set forth. Until such rules and regulations are made and published, the rules and regulations heretofore made by the commissioner shall remain in full force and effect, except as otherwise prescribed by law. Any person who shall manufacture, use, sell, transport, offer for use, sale or transportation, or have in possession with intent to use, sell or transport, any article of food contrary to the provisions of any such rule or regulation, or who shall fail to comply with any such rule or regulation, shall be deemed guilty of a violation of this act. (Id. § 3805.)

18. Labeling.—For the purposes aforesaid, it shall also be the duty of the Dairy and Food Commissioner, by ruling or rulings not inconsistent with law, to require that any article of food or the package, receptacle or container thereof, before it be sold, transported, used, offered for sale or transportation, or had in possession with intent to use, sell or transport within this State, shall be labeled, stamped, stenciled, marked or branded in such manner as to plainly exhibit to the purchaser any or all of the following data or information, to wit: The percentages and true composition of such food article, its quality, strength, quantity, source of its manufacture or production or the person by or for whom the same is manufactured, produced, packed or shipped; and the said commissioner shall also have authority to prescribe by such ruling or rulings the date on which the same shall take effect and be in force, and also the form, size, style and wording of and the place, time, method, means and manner of use of all such labels, stamps, stencils, brands and markings, which ruling or rulings shall be made and published and affidavits of publication made and filed in the manner specified in section 15 of this act [3804]. From and after the tenth day succeeding the date of the last such publication, unless a later date be fixed in the ruling for the taking effect thereof, and in such case from and after such date so fixed, such ruling or rulings shall have the force and effect of law.

The affidavit of publication, or a duly certified copy thereof, shall be prima facie evidence of the facts therein contained, and of the due making and publishing of the ruling or rulings therein set forth. Until such rulings are made and published and in effect as aforesaid, the rulings heretofore made by the commissioner shall remain in full force and effect, except as otherwise prescribed by law. Any person who shall fail to comply with such ruling or rulings shall be deemed guilty of a violation of this act. (Id. § 3806.)

19. Analysis; Evidence.—It shall be the duty of the Chief Chemist and assistants to make analysis and examinations of such articles as shall be furnished to them by the commissioner for the purpose of determining from such examination whether such articles are adulterated, misbranded, insufficiently labeled, unwholesome, poisonous or deleterious within the meaning of this act, and whether such articles have been manufactured, used, sold, transported, offered for use, sale or transportation, or had in possession with intent to use, sell or transport in violation of any provision of this act or of any definition, standard, rule, regulation or ruling made and published thereunder, and to certify the result of such analysis and examination to the commissioner. A copy of the result of the examination or analysis of any such article, duly authenticated, by the chemist making such analysis

or examination, under oath of such chemist, shall be prima facie evidence in all courts of the matters and facts therein contained. (Id. § 3807.)

20. Duty to Prosecute.—It shall be the duty of every prosecuting officer to whom the commissioner shall report any violation of this act to cause appropriate proceedings to be commenced and prosecuted in the proper courts without delay for the enforcement of the penalties as in such case herein provided. (Id. § 3808.)

21. Penalties.—Any person violating or failing to comply with any of the provisions of this act, or any of the provisions of any of the rules, regulations, definitions, standards or rulings made and published thereunder shall be deemed guilty of a misdemeanor, and, save as herein otherwise specifically provided, for each first offense shall be punished by a fine of not less than fifteen dollars, or by imprisonment for not less than twenty days, and for each subsequent offense by a fine of not less than fifty dollars or by imprisonment for not less than sixty days. (Id. § 3809.)

22. Disposition of Receipts.—In all prosecutions under this act, save as herein otherwise specifically provided, the fine or fines collected by and under the same shall be forthwith transmitted by the officer collecting the same to the State Treasurer, to the credit of the general revenue fund, and all other fees and payments made to the Dairy and Food Commissioner, except as aforesaid, shall be accounted for and disposed of in the same manner. (Id. § 3810.)
